REVENUE TAXES OF U.S. FOR 1916 **BREAK RECORDS**

Illinois Ranks Third in Corporation and Personal Income Payments.

IBY A STAFF CORRESPONDENT.) Washington, D. C., Nov. 26.-[Special.] -Nearly \$100,000,000 more was paid to the United States in internal revenue taxes for the year ending June 30, 1916 than in the preceding year, when the taxes reached the greatest total in their history. The total taxes collected for the year 1916 were \$512,723,287, according to the report of the comm

of internal revenue made public today. These large increases were caused partly by the immense increases in in-ternal taxes imposed by the Democratic party and partly by the tremendous increase in business caused by the war. Of this amount, corporations paid nearly \$68,000,000 in income taxes, ac-

ording to the report. Both these su showed large gains over the year 1915. \$39,000,000 and individual taxes \$41,000,-Fermented Liquors Decrease. Other principal increases were in dis tilled spirits, which showed an increase of more than \$13,000,000; manufactured tobacco, cigars, and cigarets, which showed an increase of nearly \$8,000,000.

The only item to show a large decrease decreased \$1,155,000. The increase in taxes on distilled spirits was accounted for by the large amount of alcohol that was manufactured for war munitions. However, the distilled spirits of the drinkable kind also showed large increases. During the early part of the fiscal year the tax on ferm liquors showed a tremendous falling off, but gained substantially during the lat-

OU KNOW HOW COSTS have gone up in your business. And the clothing and tailoring industries have been particularly affected by the stringent market advances. Every ingredient that goes into a suit of clothes—from its basic cloth to its minor trimmings—has undergone severe cost in-

every reliable grade, dyes, silks, satins, linings, canvas, hair-cloth, thread, even humble buttons have mounted with the upward price movement.

Down town clothiers and tailors have had no recourse in this situation. They have been obliged to frankly burden the increased costs upon the "Ultimate Consumer" in one of two ways:

(a) By selling a lesser quality at the former price or (b) by advancing the former price.

There isn't an employee on your force who isn't feeling the pinch and stab of "War Time" clothing prices.

As a patriotic service — a courtesy service—to its own home town, this big wholesale tailoring house, with an out-of-town wholesale output of half a million suits and overcoats a year—has opened a retail department for Chicago men to serve the home trade so long as the present tight market continues.

This service is confined solely to Chicago voters and taxpayers. Out-of-town buyers, as always, must order Royal tailoring of our authorized dealers.

We are inaugurating this new service to pay a debt which we freely acknowledge to Chicago.

For more than thirty years we have thrived and prospered through Chicago's manufacturing, distributing and labor advantages.

And we feel that it is only fair return - while Chicago needs help on its clothes problem - to offer that help.

Our plant is here. Its upkeep is covered by our wholesale trade. So we can offer Chicagoans a clothes service without charging a penny for retail overhead or store upkeep.

This very definite saving in store maintenance—given to every Chicago customer — more than offsets all "War Cost" material and labor increases.

Hitherto we have had no Chicago outlet - nor have we invited or encouraged that outlet. Our business has been exclusively an out-of-town

wholesale business — with local distributors in 10,000 outside cities and towns.

And outside Chicago our product always will be sold exclusively by local dealers. No man who does not live within the recognized city boundaries of Chicago can buy a Royal garment at any price unless he orders it through an authorized Royal dealer.

In establishing this timely accommodationservice for the home market, we are breaching no honored or traditional wholesale ethic. We are simply acting as our own local retailers.

At least two of the largest stores on State
Street are owned by Chicago wholesale houses.
These great wholesale distributors use their
State Street stores—quite properly and efficiently—to serve the home-town market.

It is on this principle that our new Chicago retail department has been created. But with this distinction: We are using our plant for our storeentirely eliminating all down-town store overhead.

We are going to ask if you will have this an nouncement placed at your time-clocks, so your people will not miss it.

We need not tell you that \$25 is a remarkable price for a genuine ALL PURE WOOL made-to-measure custom-tailored suit or over-coat.

And that price is typical of the values we are offering in this special home-town department. We have some suitings and overcoatings for as low as \$18.50 and \$20 (made to order.) for the man who feels that he cannot afford to pay more.

Many of your employees will welcome this money-saving opportunity. It will come as an oasis in the present grim desert of War Time living costs. So this is our invitation to them to call.

We will take special pride in serving the folks from your house.

Every man on your pay roll is invited to visit our famous Sunshine Tailoring Plant at Fifth Avenue and Polk Street. It is an easy lunch-hour walk.

It is an easy lunch-hour walk, and we'll promise him that he'll have no fault to find with Royal cordiality and courtesy.

DRACTICAL-MINDED men were quick to discover how well Fatimas exactly suited their smoke-needs. Fatimas were found to be comfortable.

Not alone because they are cool and comfortable to the throat and tongue. But because they do not intrude on busy minds.

Fatima's delicately balanced Turkish blend - unlike that of a heavier, more "oily" cigarette—leaves a man feeling keen and alert even after a long-smoking day.

An Extraordinary Expense

DREVIOUS articles have mentioned some of the burdens borne by the Companies in the way of contributions to direct public benefits in addition to the general taxes, which alone amount to over \$5,000 a day.

There is one extraordinary burden upon the Companies about which the public knows little. After the Companies have gone to the expense of laying their tracks in a street at a cost of more than \$100,000 per mile of double track, it often happens that the City finds it necessary to build a bigger sewer or move water mains in that street.

When this happens the tracks and paving must be torn up, moved and later relaid and the right of way repaved.

Although bigger sewers and water mains are for the exclusive benefit of the property owners and the public generally, and not required by the Companies, the Companies heretofore have borne the entire expense of tearing out their tracks and paving, and later rebuilding the tracks and relaying the paving in their right of way.

About \$2,000,000 have been paid out by the Companies in connection with this class of public benefits in addition to the cost of repaving. This means that \$2,000,000 have been practically thrown away—wasted because the City failed to prepare its plans so as to avoid disturbing the Companies' expensive track construction in the street.

This amount was taken out of transportation and thrown away. You are interested.

Are the Most Treasured Gifts

There are a number of reasons why you should use books for gifts, but the two most important ones are that no other gift is so easy to select or will bring such lasting pleasure as a good book,

The early Christmas shopper will be overwhelmed with delight with the books we offer this year. There are more books and more different kinds of books here than have ever been seen in one store before convenient arrangement makes them easily procurable, too.

Capt. Baston of Minnesota is placed at the other end. Like Mayers, he has played consistent football and has been a factor in every game Minnesota played. His ability to worm himself into a position to receive forward passes was one of his strong points. Even acouts from other institutions tried without success to figure how the Gopher leader evaded the defense. Coach Williams employs the shift. In the successful execution of the various plays sprung from this shift an end may drop back to carry the ball. Baston

Hart Schaffner & Marx Solved a **Knotty Problem**

It was a vexing question that confronted this great clothing house fifteen years ago. The men responsible for the accounting service to customers wanted to render neat, readable, accurate bills on time and at the minimum expense.

The machine with the flat writing surface was recommended to furnish just the wanted results-but would it do it? That was part of the problem.

It was solved—permanently.

That was 15 years ago. Today more than 25 Elliott-Pisher machines are used by Hart Schaffner & Marx to furnish accounting service and save money-and today

Hart Schaffner & Marx say: "Entirely Satisfactory"

This battery of machines is not used alone for billing-it does the ledger posting, enters orders, writes card records, handles sales distribution, etc.

Elliott-Fisher machines are solving knotty accounting prob-lems for thousands of businesses—eliminating delays, blunders, congestion, overtime, furnishing accuracy and saving money. Whatever your bookkeeping or billing problems, Elliott-Fisher

machines furnish the solution. The work of our accounting specialists is to study your prob-lems and help to solve them. Telephone "Franklin 1391" or write to Elliott-Fisher Co., 1207 Peoples Gas Building, 122 South Michigan

The picture is really well worth seeing, for it has decided educational value. Also you meet face to face some of the real men behind. I think that Edward Eikas as the old miser does one of the most realistic bits of acting I have seen. Personally, I like Lillian Walker best when the dimples are not so much in evidence. In the scenes when she is not really trying to act and has forgotten to be merely pretty, she rather astonishes you. From now until Christmas: hours of business from 8a.m. to 6 p. m.

T o you on the quest of the Christmas gift to-day, this store is dedicated.

Every section has its Christmas message ready in concrete form, awaiting your approving word.

Whether or not you have set limitations upon your expenditures, each collection, we believe, is prepared to meet your views perfectly - for no gift is small that "bears the imprint of good taste," and no gift, big or little, is really in the Spirit of Christmas that is not chosen with care.

THREE MURDERED **AS POLICE START GUNMEN ROUNDUP**

Mystery Shots Kill Italian Near Death Corner—One Felled on South Side.

Violence and sudden death wrote grim entries into the police records during the twenty-four hours that ended at sundown yesterday.

ended at sundown yesterday.

Three men were murdered—one in the heart of "Little Italy," one on the south side, and one at some unknown point west of the city.

A fourth killing, which took place eleven days ago, became known for the first time when the slayer con-

man was shot by an assailant who fied through a window at the moment the police entered the door.

And it all happened in ironic defiance of the most vigorous police move of the year—the activities of 120

detectives, sent out by First Deputy Schuettler in thirty "flying squads" to round up known criminals and stop the orgy of shooting that filled last week's news columns.

SHOOTS OUT OF DOORWAY The red record begins with the fa-

niliar tale of shots pumped from a darkened doorway on the lower north side, a man dead on the sidewalk, a widow crazed by grief—and the usual answer: "He was an Italian." Thus: Joseph Diovardí, a grocer at 858 Mil-ton avenue, was shot to death while standing in front of the saloon owned by Frank Redisi and Circ Forest at 851 YOUTH ACCUSED OF SLAYING. The production of the Bast Butte Copper Mining company at the Pittsmont amelitar for October amounted to 1,650,160 pounds of copper and 51,022 ounces of aliver. This is the lowest copper production since the month of June and was a falling off of 50,000 pounds from September's output. This loss was due to the reduction in the amount of custom ore handled.

French Municipal Loans

City of Bordeaux City of Lyons City of Marseilles Six Per Cent. Three-Year Gold Bonds

Due November 1, 1919

\$20,000,000

INTEREST PAYABLE MAY I AND NOVEMBER 1 Principal and interest payable without deduction for any French governmental or mu-

Principal and interest payable in New York in United States gold coin, or, at the option of the holder (to be exercised as to principal thirty days before the date of maturity) in France in France at the fixed rate of France 5.60 per Dollar. Coupon bearer bonds in denominations of \$1,000, \$500 and \$100 each.

The Government of the French Republic is to undertake to furnish and permit the exportation of gold, so far as necessary, to permit the Cities to pay the interest or principal amount of the loans in gold in the City of New York.

We are informed that these loans are the only external loans of the above mentioned Cities and are to be made to provide for expenditures for the alleviation of suffering caused by the war and for other municipal purposes.

BORDEAUX, one of the three leading French seaports, has, according to the last enumeration, a population of 261,678 and a funded debt of Fcs. 48,500,000 (approximately \$9,000,000).

next to Paris the leading trade centre of France, has, according to the last enumeration, a population of 523,796 and a funded debt of Fcs. 97,000,000 (approximately \$18,000,000). MARSEILLES, the foremost seaport of France, has, according to the last enumeration, a population of 550,619 and a funded debt of Fcs. 122,800,000 (approximately \$23,000,000).

THE UNDERSIGNED WILL RECEIVE SUBSCRIPTIONS FOR THE ABOVE BONDS AT 98 PER CENT. AND ACCRUED INTEREST, AT WHICH PRICE THE BONDS YIELD ABOUT 6.75 PER CENT. ON THE INVESTMENT.

Particular attention is called to the small per capita debt of these Cities, to the attractive yield of the bonds and to the possibility of a very substantial profit in rate of Francs 5.60 per Dollar. Thus if at the maturity of the bonds at the exchange should be Fcs. 5.18 (the normal rate before the war) the principal sum payable in France would equal a redemption price in dollars of about 108%.

Subscriptions will be apportioned among the three issues of bonds and allotments will be made on the basis of equal amounts of each issue, in so far as feasible.

The subscription will be closed at three o'clock p. m. on Tuesday, November 28, 1916, or earlier, the right being reserved to reject any applications and to award a smaller amount than A first payment of \$50 per \$1,000 bond subscribed for must accompany all subscriptions. The balance of the amount due on bonds allotted upon subscriptions will be payable in New York exchangeable for engraved bonds when prepared.

If no allotment be made, the first payment will be repaid in full, and if only a portion of the amount applied for be allotted, the balance of the first payment will be applied towards the further balance remains such balance will be repaid. Failure to pay the second installment when action and to the opinion of Counsel as to legality.
